Bedford Getting Ready For Convention

Bedford County Sunday School workers are getting ready for their Annual County Convention which will be held on June 3rd and 4th at Hyndman.

A splendid program is being arranged. State workers and a special musical director have been secured and Hyndman also is preparing for the crowd that they are sure to have. Let every Sunday School in the County arrange now for at least two delegates to attend this convention. Leaders in their Schools, who will bring home to their school and help put into practice the good things of this County gathering.

Organized Labor For League

Senators are being requested by organized labor "to support the League of Nations when it is presented for consideration as a part of the treaty of peace."

Samuel Gompers, President of the American Federation of Labor just returned from France with the Labor Mission to the Peace Conference, has reassured those who may have been inclined to waver in their support of the league.

"It may be that the league covenant needed amendment," Mr. Gompers declared. "It may be that it is not a perfect instrument, but in principle it is right. It is not only a League of Nations, but it is a league of free peoples of the nations of the world."

Five thousand labor representatives have been commissioned to carry on a speaking campaign among the unions, and it is estimated that 1000 addresses per diem are being made before such organizations.

President Wilson May Be Back June 15th

Paris advises to the White House indicate that President Wilson is expected back in the United States about June 15th. Secretary of State, Lansing, has left Paris for a trip to England. His trip, the Secretary cabled is merely for a few days rest.

Soldiers Allowed Five Cent Mileage

Discharged Soldiers, Sailors, and Marines will be allowed 5 cents a mile from the place of their discharge to either their homes or place of original muster into the service, instead of 3 and one half cents a mile as formerly.

Discharged soldiers who have been paid only 3 and 1-2 cents a mile to return to their home may obtain the additional 1 and one half cents a mile. An affidavit on Government form which may be obtained from the Director of Finance Lemon Bldg. Washington, D. C., should be filled out and mailed with the soldier's discharge to the Director of Finance Travel Allowance Division, Lemon Bldg., Washington, D. C. A force is being organized to be increased to 1,000 clerks and although the bonus checks are not all out as yet, the mileage vouchers will begin to be mailed at once.

Discharged sailors may get their additional mileage upon application to the Bureau of Navigation, Navy Department, Washington D. C.

Reception To War Mothers and Wives

Arrangements have been completed for the reception to be given the War Mothers and Wives of Bedford County at the Arandale on May 17, 1919.

Hundreds of mothers have accepted their invitations and a delightful time is anticipated. A most interesting program has been prepared and the High School orchestra will furnish the music. Mrs. E. E. Kierman, of Somerset, the president of the Pennsylvania Congress of Mothers, will be one of the speakers. Mr. Palmer Cleaver, a former Bedford boy, will tell of his experience while a prisoner of war in Germany. Lieutenant Henry Pleacher and Sergeant Samuel Russell will represent Company L. Mrs. Raymond Burke and Mrs. George T. Jacobs will add to the pleasure of the guests with vocal solos. At three o'clock Adjutant Harry H. Bayes an overseas Salvation Army Worker, who spent many months at the front, will delight the mothers and friends with a recital of the wonderful work of the Salvation Army Officers and ladies who swore solemn allegiance to the Stars and Stripes and put every ambition aside and went with our boys into the black night of war, through showers of fire to the gates of eternity with many and then turned to comfort those whom they left at home in sorrow. The public are cordially invited to hear Adjutant Bayes at three o'clock at the Arandale. All out-of-town guests, local mothers, wives and workers will be taken to the Arandale in cars from the Public Square at ten o'clock Saturday morning.

F. To Quit France By August

Secretary Baker of the War Department announced that by August the last man of the American Expeditionary Forces will have been drawn from France and that this estimate was based on the movement of 300,000 men a month to the United States. More than half of the expeditionary forces have now left France, Mr. Baker said.

Soldier Welcome Chance To Engage In Farm Work

There is an after war song running something like this: "How are you going to get him back on the farm, After he's seen Parree?"

The problem is one that the United States Department of Agriculture is successfully attacking, not by "back-to-the-farm" propaganda, but simply by informing soldiers of definite opportunities to enter or return to agricultural work. Already such opportunities have proved to be all that was necessary to induce many soldiers, sailors and marines to join or rejoin the peace-time army of food producers.

At the demobilization camps agricultural representatives are conferring with soldiers about opportunities for a job in agricultural work. The information they give the men is definite. Each demobilization camp discharges men from certain states. These representatives have a list of all agricultural jobs open in those States. These lists are classified into different types of farming, so that the soldier can quickly be connected with the particular job he wants or is best suited to fill.

If a soldier wants to work on a stock farm, the lists will quickly show all the opportunities open in the State to which he intends going. And the lists contain similar information about general farming, grain farming, dairying, fruit and truck farming. Lists are also kept of farms for sale and for rent and farm owners who want partners. Full descriptions of all opportunities are obtained so that the soldier can intelligently decide on a job or an investment. When the soldier intends going to a State some distance he is given letters of introduction to the county agents. The county agents have lists of agricultural opportunities in their counties similar to the lists in the army camps. The county agent can usually place a man on a farm without delay.

Many soldiers have saved some of their pay while in the Army. They now want to start in the farming business for themselves. The Government helps them decide where they can best make a start with their limited capital, and oftentimes helps them secure credit for buying farm equipment. Local financiers are sometimes willing to extend the soldier credit on his character and good intentions rather than of any collateral he might be able to put up.

Getting the Soldiers Interested

In the barracks of the army camps are placed attractive posters which call attention to the presence in camp of a representative of the United States Department of Agriculture. These posters ask pertinent questions and state facts about different occupations that remind the soldier who is soon to be discharged that the farm is a mighty good place to be if he is suited or trained for farm work.

Do you want a farm job? Have you ever considered owning a farm? Would you like to rent a farm? Can you drive a tractor? Do you want to buy a farm? These and many other questions are asked. No rosy pictures are painted of a life in flowery beds of ease on the farm. Straightforward facts and figures are presented. The Government does not want to send any soldier to the farm unless he is fitted to succeed there.

In some camps farmer's institutes are held. Experts in farm work lecture and answer questions. These institutes run a week with a different program every day. When a new bunch of soldiers come in the work is repeated. One camp reported that 250 to 400 soldiers attend every meeting. The camp libraries assist by placing agricultural books and papers in the lecture halls.

Results of the Work

Where records have been kept they show that many soldiers who would have drifted to a city goes back to the farm. In one camp, before the agricultural representative had information about definite jobs and farm opportunities, 50 per cent of the farm boys went to the cities to get a job. After he had the information only 5 per cent of those with previous farm experience chose the city.

There was a shortage of farm labor before the war. One million men went from the farms into military and naval service. Some of these men will not return to the land. This is neither unusual nor unexpected. Many thousands of young men left the farms during peace times for industry, the professions and work in the cities. But the large majority of

soliders who came from the farms and who are given any reasonable opportunity are again taking up farm work.

Biggest Wheat Crop Known Forecasted

The greatest crop of winter wheat ever produced in any country is in prospect for this year's harvest. The forecast of production, estimated by the Department of Agriculture, placed its size at almost nine hundred million bushels—in exact figures \$99,913,000 which would make this year's harvest worth \$2,034,000,000 at the Government's price guarantee of \$2.26 a bushel.

Kansas is producing an enormous crop, the forecast of production for that State being almost 22 per cent of the country's total indicated output.

The acreage is the largest on record and the area abandoned from winter killing, overflows and other causes is extremely low, 1.1 per cent. Growing conditions have been splendid and the crop from April 1 to May 1 made an improvement, bringing it to 100.5 per cent of a normal, which is the highest condition on record for May 1. Continued good growing conditions from now to time of harvest might result in a crop larger than 900,000,000 bushels.

MARIA C. FISHER

Miss Maria C. Fisher of 325 John Street, Bedford, Pa. died on Tuesday morning of Tuberculosis after an illness of several years. She was the daughter of Adam and Catharine Fisher and was born near Bedford Springs in 1860. She had lived in Bedford about 20 years.

She had an amiable disposition and was loved by all who knew her. She leaves one sister Mary and two brothers John and Joseph. She was buried on Thursday by Rev. C. Logan McKinney from St. James Catholic Church of which she was a devoted member. Interment in the church cemetery.

Paying For Bad Roads

The high cost of bad roads reaches into the pocketbook of every man, woman and child throughout the country. And the startling fact connected with this entire affair is that so few people fully realize the big part poor highways play in keeping up the cost of living.

To cite one real instance of bad road costs: There is a 14 mile mud stretch of highway between Unity O. and Beaver Falls, Pa. on the Cleveland Pittsburgh Pike, that for rough going in inclement weather was about the average bad country road the world over. The surveyor of Beaver county estimates that more than 600 trucks a week traversed this section new trucks going to the coast, farmers hauling to market, express lines, etc.

Before this road was repaired a truck manufacturer had occasion to send a fleet of trucks overland to their Pittsburgh distributor via this route, and the drivers reported 14 trucks stuck on this stretch of roadway. Now, on the brick pavement from Salem, O., to Unity, the trucks averaged about 16 miles an hour and eight miles to the gallon of gas; while on this bad stretch the trucks averaged only two mile per hour and only eight-tenths of a mile to a gallon of gas, or seven hours to make this 14 miles.

The cost record on this run showed an increase for operation over 11 miles of \$24 above the cost for good road going. This extra charge includes supplies, driver's wages, gas, oil, tires, wear and tear interest, depreciation, time lost, and so on. Now if the surveyor's figures are correct namely, that 600 trucks a week were going through this section, the total extra cost to the truck operators over a three month's period would amount to \$178,800. In other words, this amazing figure would be a total waste for it represents the amount above the ordinary truck operating costs for good roads over a like number of miles. Someone is paying the price for bad roads. And that "someone" can only be the consumer, for the farmer or expressman, bringing wares to the city must levy an additional price to offset increased operating costs.

McMILLEN—SMITH

Forest H. McMillen of Wilkensburg son of Mr. and Mrs. G. M. McMillen of New Paris and Miss Edna Marion Smith daughter of Mr. and Mrs. G. R. Smith of Homewood, were united in marriage on May 6, 1919 in the Redeemer Lutheran Church by the pastor of that church the Rev. Woods Mr. McMillen is an employee in the purchasing department of the Westinghouse Electric Manufacturing Company of East Pittsburgh. On the same day of their marriage they located in their new home in Wilkensburg.

No alarm clock was needed to wake some of the Senators when Congress was called.

The peace terms laid down for the Germans are very mild compared to the penalties which they were ready to impose on the world in the event of victory.

Middle West Outlook Fine For Democracy

Homer S. Cummings, chairman of the Democratic National Committee, from a trip to Indiana, Ohio and Michigan with unlimited confidence in the future outlook for party success.

The tour was the first extended journey Mr. Cummings had made since his election to the chairmanship of the Democratic national organization some weeks ago. He declared that he found the Democrats in the Central West, particularly in Indiana and Ohio, in a militant frame of mind and determined upon victory in 1920.

"I am convinced," said Mr. Cummings, "after carefully viewing the situation in Indiana and Ohio, that we will carry both of those States in the next campaign. The party managers are energetic and forward-looking men who are thoroughly conversant with the temper of their electorate. They assured me that the Democrats in their section were never more alive than they are today and I gained a like impression from personal observation."

At Indianapolis, Mr. Cummings conferred with Indiana Democratic leaders from every county in the State and received the greatest encouragement from their reports. He also addressed a dinner gathering of nearly 500 men and women in Indianapolis, where unbounded enthusiasm prevailed. Indiana is one of the States which recently has granted presidential suffrage to women and the new voters appeared keenly interested in the political subjects discussed.

Fine Spirit in Ohio

At Columbus where he conferred among others with Governor Cox and Senator Pomerene, Mr. Cummings said he found the Ohio Democracy as vigorous as in the neighbor State of Indiana. Party representatives from virtually all the Ohio counties gathered in Columbus to meet the national chairman, as did a large number of Democratic editors.

In both Indiana and Ohio the Republican successes in the congressional elections last November were regarded in the nature of "flukes" and county leaders were almost unanimous in their predictions that a favorable reversal was on the cards for 1920.

While it was conceded, that the Republican organization had succeeded in marshalling the forces of discontent and irritation growing out of the war in the elections last fall it was reported to Chairman Cummings that these elements were rapidly being engulfed as the soldiers returned from camps and overseas, and the Administration's great achievements were being revealed.

In the three States he visited Mr. Cummings witnessed parades of returning warriors and heard approval on all sides of the excellent physical condition in which the fighting men were being returned to private life. The speedy manner in which soldiers were finding employment also was a subject of general commendation.

Although usually regarded as hopelessly Republican, Mr. Cummings found in Michigan a new spirit among the Democrats and much discontent among Republicans over the methods pursued by Turman H. Newberry in his campaign for the United States Senate. Few were found who thought it possible that the Senate would permit Mr. Newberry to retain his seat and it was discovered that in both the Republican and Democratic parties candidates are being groomed to contest in a special election for the expected vacancy.

New Michigan Chairman

The Michigan Democrats have chosen a new State chairman, Thad B. Preston, a business man and banker of prominence. Under his leadership the party in Michigan is to be organized from the precincts up.

"Mr. Preston's activity," said Mr. Cummings, "is indicative of the attitude of the progressive and far-seeing business men of Michigan and elsewhere who approve the middle course adopted by the Democratic party between the extremes of radicalism on the one hand and ultra-conservatism on the other."

Everywhere he visited Mr. Cummings asserted he found evidences of the greatest prosperity. Business enterprises which had been devoted entirely to war work have been quickly readjusted to peace conditions and there was no indication anywhere of depression or idleness. Between political conferences, Mr. Cummings spoke in advocacy of the League of Nations. He said he found a ready response at all of his meetings and apparent universal approval of President Wilson's efforts in behalf of a permanent world peace.

"There is no question America is behind the President and the League of Nations," he said. "The opposition is crumbling. The people have not been deceived by the critics of the League and have scant sympathy for those who would seek to mislead them."

Mr. Cummings plans to remain in the East until late in May, when, following a meeting of the Democratic National Committee in Chicago, he will make a tour of Western and Pacific Coast States.

"IF" OR "SUPPOSING"

By GEORGE ADE.

On October 1, 1918, you, being a
wise man and having read with care
the opinions of military experts, knew:

1. That the great war was going to
last until far into the summer of 1919.
2. That the casualties among the
American soldiers would be increas-
ingly heavy up to the final moment
of fighting.

3. That, as a result of the growing
magnitude of the world struggle, the
government of the United States
would call upon us for at least three
hundred bond subscriptions during 1919.

If you believed otherwise you were
in the minority, for the cabinets of all
the nations united against Germany,
and the bankers and the shipbuilders.

When you start to go somewhere,
do you travel four-fifths of the way
and then flop by the wayside?

Can you be patriotic when the band
is not playing?
We are setting up a big job, so
don't queer your war record at the
eleventh hour by being a quitter.

POST-WAR ACTIVITIES OF "Y."

Latest figures compiled by the Eastern
department of the Y. M. C. A., which
comprises New York, New Jersey, Penn-
sylvania, Delaware, Maryland, District of
Columbia, Virginia and West Virginia,
tell a story of continued post-war service
to the returning troops who pass through
the Eastern states in never-ending
streams during the process of debarka-
tion and demobilization. Although there
are 500,000 less men in Eastern depart-
ment camps than there were before the
armistice, the staff of Y. M. C. A. officers
is almost as large as it was during the
war, and every effort is being made to
increase and extend "Y" service. There
are now 1,185 Red Triangle men actively
engaged in providing for the wants of
home-coming soldiers. The figures show:
At "Y" huts and service buildings there
is an average monthly attendance of
2,930,273 men. These men buy every
month \$38,617.22 worth of postage stamps
over the "Y" counter, send home in
money orders \$101,837.70, and use 3,357,
493 Red Triangle envelopes. They attend
1,307 free entertainments other than
movies given by the Y. M. C. A., 2,818
moving picture shows, and 834 parties
at which no entertainment program is
given. There are 71,102 men participating
in compulsory athletics every month,
about 50,000 who engage in formal ath-
letics and 367,953 in informal athletics,
all staged by the Y. M. C. A. Nearly 3,000
class meetings are held monthly for vo-
cational instruction, attended by 35,373
men. In addition there are 3,070 lectures
with an attendance of 233,257 men. About
60,000 books are loaned each month, and
19,256 newspapers and magazines are
kept constantly in circulation. Last
month there were 2,018 religious meetings
with a total attendance of 215,100.

PLAYS FOR THE WAR WEARY.

When the Y. M. C. A. first began to act
as theatrical manager and producer for
the A. E. F. in France the equipment
consisted of one trunkful of costumes,
four banjos and two guitars. But the
doughboy soon proved that all the
world's a stage, even a world at war, for
the "soldier shows" rapidly became the
favorite indoor sport of American sol-
diers, and the service groups corre-
spondingly fast. Professional coaches are
now organized under the direction of Miss
Dorothy Donnelly, one of America's fa-
vorite actresses, and Mr. Joseph Lindon
Smith, head of the Overseas Theater
League, with offices in Paris, has in-
creased that first trunkful of properties
to the following proportions: 6,119 cos-
tumes, 1,944 musical instruments, 15,356
pieces of sheet music, 1,893 make-up sets
and 400 wigs.

FULL MILITARY HONORS AT "Y" WORKER'S FUNERAL

Miss Marjorie Vrooman, Y. M. C. A.
canteen worker, who recently died in
France, was one of the few welfare work-
ers abroad who at death were honored
with a full military funeral. She was ac-
cording all military honors paid officers of
the A. E. F. who died in France. Miss

Vrooman came from Clyde, N. Y., and
had been abroad at Cautelets, a "Y"
leave area in the Pyrenees, since Novem-
ber.

Immediately following the death of Miss
Vrooman, who was a most beloved mem-
ber of the "Y" staff canteens, Col. P. D.
Evans, commanding officer, ordered the
flags at half-mast and all entertainment
in the village incident to Mardel Gras sus-
pended. A military guard was placed at
the modest little peasant's cottage where
the young girl had died.

Services were conducted at army head-
quarters. Evergreens and flowers, many
of them picked from the mountain sides
by soldiers, made a beautiful floral set-
ting for the flag-draped casket. The en-
tire Y. M. C. A. staff and more than a
thousand soldiers attended the funeral,
after which the remains were carried
down the mountain. Interment was at
Bordeaux, in the American military cem-
etery.

PERSHING LIKES "Y" HOSTELRIES

Inspects Those in Paris and
Praises Arrangements for
Doughboys' Comfort.

THANKS WOMEN WORKERS.

Without Welfare Agencies' Assistance
Soldiers Could Not Afford to
Visit Paris.

PARIS, April 25.—One of the princi-
pal reasons for the unqualified
success achieved by General
Pershing as head of the A. E. F. has
been his insistence upon everything
possible being done for the physical
comfort and the moral and mental
well being of his men, and his per-
sonal attention to details, the carry-
ing out of which were necessary for
the success of his program.

Many stories are told of General Per-
shing's inspection tours and the thor-
oughness with which he has inquired
into the welfare plans of each and every
one of the organizations working in the
interest of the doughboys. In a recent
tour of the Y. M. C. A. hostels in
Paris the general stopped to address sev-
eral hundred men he found in the lobby
of the Hotel du Pavillon, much to the
delight of the soldiers themselves, who
declared afterwards that he had talked
to them like a friend instead of a com-
manding officer.

"I may not have the opportunity of
meeting you boys again," he said. "I
may not meet your comrades in your
units, but when you return to them I
want you to carry back with you these
messages: I appreciate the way you
have fought. You have been true sol-
diers and brave men, and as an army
officer I want you to know that my hope
is that you will return to America as
clean, morally and physically as you
came to France. The Y. M. C. A. and
other organizations are making that pos-
sible by equipping places like this in
which you now are. I know that you ap-
preciate the Y. M. C. A. or this room
would not be crowded at half-past four
in the afternoon. I want you to know
that as commanding officer of the Amer-
ican forces I appreciate the work that is
being done by the Y. M. C. A., and I hope
that when you return to your units you
will carry back with you the message
of that common appreciation—mine and
your own."

During another tour of the Y. M. C. A.
eating and sleeping quarters at the
French capital he shook hands with and
commended every American

woman worker whom he met at the
Palais du Glace, the huge "Y" recrea-
tion center and canteen on the Champs
Elysees. The Palais du Glace, he de-
clared, would be very popular with him
if he were a soldier on leave in Paris.

General Pershing's inspection of the
Y. M. C. A. canteen, which was unan-
nounced, took up an entire morning and
he expressed himself satisfied with the
results. At several places he surprised
the men at their luncheon. At the Palais
du Glace, where 25,000 Americans eat
daily, the first intimation that the diners
had of his presence was when the or-
chestra played "The Star Spangled Ban-
ner," and they looked about to find the
commander-in-chief of the A. E. F.
standing at attention. He interrogated
a number of the soldiers about the food
and the prices, and exhibited the most
minute interest in everything pertaining
to their welfare. At the Hotel Rochester,
a Y. M. C. A. hostelry on the Boulevard
Courcelles, he learned with surprise that
any private soldier could get two eggs
for his breakfast. This was something
that generals frequently had experienced
difficulty in doing.

To the American women workers at the
Palais du Glace he said: "I want to tell
you that I appreciate what the American
women are doing over here. It means a
great deal to the army to have the right
kind of American women here doing the
work you are doing. Not only is it good
for the soldiers, but for you, too."

BABY SHOW IS NEWEST DIVERSION OF DOUGHBOYS

Paris, April 25.—A show of American
babies in a U. S. army camp in France is
the latest diversion of the A. E. F., who,
always on the lookout for something new,
usually find it. Of course it was not a
show of real babies, but it was an exhibi-
tion of their photographs, as entered by

several hundred fond doughboys, each of
whom was perfectly sure that his pet in-
fant back in the States was quite the
nicest baby in the world.

It was the idea of two Y. M. C. A. girls
—Miss Mary G. Paxton of Roanoke, Va.,
and Miss Anna T. Blanton of Nashville,
Tenn., who were stationed at Fort St.
Menge with the Six Hundred and First
Engineers. Every day these two were
called upon to admire snapshots of dozens
of little Yankee whose pictures had gone
through a whole war and were now the
chief solace of their soldier fathers and
brothers and cousins in the interval of
waiting to go home. And the baby show
was the result.

It was a magnificent success. The "Y"
hut was filled with baby pictures dug out
of khaki frames and O. D. pockets for the
Grand Prix exhibit. "Pennsylvania Bet-
ty," a piece of Private O. Friday, a troop-
er from the Keystone State, was awarded
the gold medal, the first American baby
who ever won such an honor in France.

GEESE AS PRODUCERS OF FAT

Importance of Adequate Number of
Fowls in Poultry Scheme Is
Quite Apparent.

Geese hold a sector in the line of the
poultry army that makes war against
waste. When the facts are taken into
consideration that the demand for
geese is strong, steady and extends
over practically the whole year, that
geese excel all other kinds of poultry
as producers of fat, a thing of which
the world stands at present in dire
need, and that their value as egg pro-
ducers is considerable, the importance
of an adequate number of geese in the
poultry scheme becomes apparent.
Geese take their living in large part
from grasses of the pasture and need
none of this nature to be kept at a
profit.

KEEP SICK FOWLS SEPARATE

When Disease Appears in Flock Place
Ailing Birds by Themselves
and Clean Up.

When disease appears in a flock of
chickens the sick fowls should be sepa-
rated and placed to themselves. If
any have died they should be burned
or buried. The house and yards should
be disinfected and a hunt begun im-
mediately for the cause of the trouble.
Conditions should be corrected as
quickly as possible to prevent its con-
tinuance.

The world is now ready for and
needs a new system of education, an
education that makes strong, useful
men and women, rather than schol-
ars. Germany produced many scholars
so did most of the other nations
which have failed.

We need an education which will
place character above knowledge.

"Can You Be Patriotic When the
Band's Not Playing?"—George Ade.

and the masters of food supplies
thought they knew that Germany
would stand out for many months.

Now then, to suppose a case. If
some one had come to you on October
1 with a proposition to end the war
within six weeks by a complete and
overwhelming victory on condition that
you would subscribe liberally for Vic-
tory bonds in the spring of 1919, you
would have replied as follows:

"Say, end the war this fall and stop
the killing and maiming of our boys,
and put the Kaiser out of business and
compel Germany to accept our terms
and let the American soldiers begin to
head for home, and I'll pledge by last
dollar for the loan that is needed to
clean up the expenses."

"That's how you felt on October 1,
1918, and now that all the miracles
have come to pass, are you going to
be grateful or forgetful?"

You are now asked to help finance
(by merely lending on favorable terms
and not giving) the final and gigantic
expenditures which brought victory
months ahead of the schedule.

If we had lost the war, what would
you be paying this spring and to
whom? How's your memory? Did
you feel certain, just a year ago today,
that Germany could be prevented from
dictating terms to the whole world?

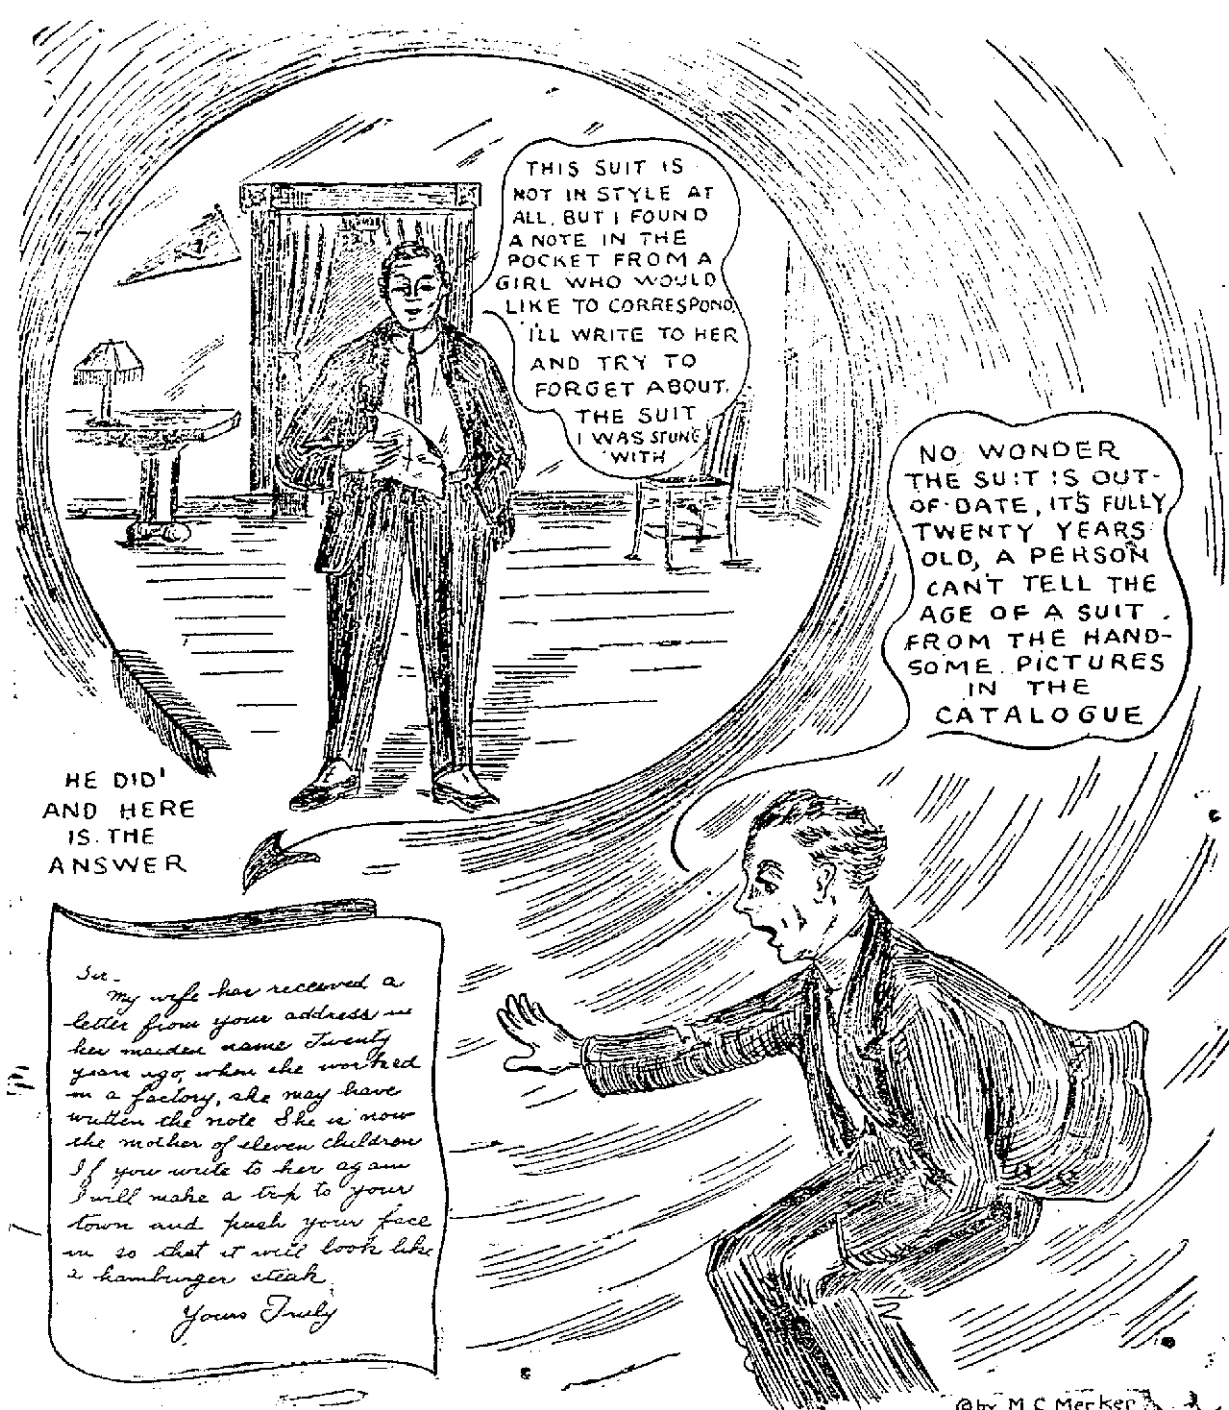

How about a loyal parent who re-
fuses to pay a doctor bill because the
child gets well instead of dying?

When you tackle a big job do you
stick to the finish, or do you go fish-
ing and permit some more dependable
man to come in and put on the roof
and chimney?

Do you experience symptoms of
morale only when the dollar is scat-
tered at the bedside?

"PENNSYLVANIA BETTY"

You Never Can Tell From A Picture

When the home clothier has a surplus of unseasonable and out-of-date merchandise in stock he wisely tells his patrons and gives them the advantage in reduced prices. The out-of-town catalogue house on the other hand paints clever pictures as bait and the victims bite freely. The outcome is inevitable. Shopworn, out-of-style and unserviceable goods are received, there is no salvation and the wearer is subject to the ridicule of his friends. Ten and often twenty years elapse before such goods get from the maker to the wearer and the wearer is the real victim. The home clothier keeps in style to please his patrons and the catalogue dealers take the surplus and work it off upon their easy victims.

MORAL:—With clothing, unlike wine, age works to their deterioration.

Yes! He bought that away from here and what has he gained by it, he thought it a bargain but they double up on him.

Every normal child has possibilities in some things. To help him to discover and develop them is the greatest service society can render him and itself.

Representative Longworth thinks the Republican party would be better off without Representative Jim Mann leadership, and Mann gives it as his opinion that Nick hasn't been of much help to the G. O. P. The average citizen will doubtless admit that both of these eminent patriots are right.

"Without the League, the heavy weight of competitive armament and the recurrence of another general world war are clearly before us."

To study about a child is not to know the individual child. Traditions, customs, preconceived notions of habit and conduct must be subordinate if not eliminate, while studying the child. Fraternize with him, associate with him, be a good fellow with him and study him. But do not let him know you are doing this. There is no study so fascinating, so absorbingly interesting. He will surprise you every day with what he knows and can do. Really he will teach you some things worth knowing, that is if you are in a mood to learn.

U. S. A GOOD FINANCIER

Other Nations' Cash Helps to Pay Liberty Loan Interest.

Uncle Sam has done some clever financing in this war. Almost one-half of the interest due to patriotic Americans subscribing to the Liberty Loans, including the Victory Loan, will be paid by interest which Uncle Sam, as a result of judicious credits, will collect from foreign governments. With the Victory Loan included the United States will face annual interest payments of about \$1,100,000,000. This money goes into the pockets of American investors. But something like \$30,000,000 of it will be offset by the interest payments which the big European powers must make to Uncle Sam.

Great Britain is debtor to the United States in the sum of \$4,175,981,000. She pays about \$205,000,000 a year interest on her loans. France has loans totalling \$2,436,427,000 and her interest payments to Uncle Sam are about \$121,000,000 a year. Italy with loans of \$1,310,000,000 pays us about \$65,000,000 a year in interest. The smaller powers also swell the total.

All of these loans were negotiated, of course, on the best of security and they are doing a big share in lightening the taxation out of which the interest on Uncle Sam's own borrowings must be paid.

100,000 BEDS FOR WOUNDED

Mere Comfort Bill is Million Dollars a Week.

Hospital facilities for the care of 105,476 sick and wounded soldiers are available in army hospitals, according to the February report of the Surgeon General of the Army.

This is one testimonial to the Yanks which the American people can properly insure through the Victory Liberty Loan. At the rate charged in the hospitals of the country, \$1 a day is required to maintain each bed. In one week the total for maintenance of sol-

diers' beds would, on the same basis, reach three-quarters of a million dollars.

Many of our sick and wounded boys require special treatment so that the expense is likely to be greater than the low daily rate quoted. Then, too, only a part of the sick and wounded have reached us.

The Victory Liberty Loan which the people of the United States are going to put over with a whoop will provide the very best care and treatment for every soldier, sailor and marine who needs attention. Your mind can be easy on that score when you subscribe to the Victory Loan.

LEND OR BE TAXED. WHICH?

"The war will not be over until the United States government has honorably met every commitment made in order to win the war."

This is the declaration of Carter Glass, Secretary of the Treasury. In plain words, we can't cry quits until we pay off our debts.

There are two ways of securing their payment. One way is with money lent by the people to the government. The other way is with money taken from the people in the form of taxes by the government.

MEN Not Sick, Yet Hardly Able to Work Come to Me and Have a Man Talk.

THE LIFETIME RELIEF AND SATISFACTION GIVEN THOSE WHO HAVE BEEN RESTORED OF THE DISEASES BELOW BY MY METHODS SHOULD BE A GUIDING STAR TO ALL MEN SEEKING TREATMENT.

URINARY OBSTRUCTION is a very annoying and injurious disease and it has a harmful effect upon the whole urinary system. I treat each case according to its requirements. SPECIAL DISEASES—Itching Burning, Scalding, Painful Passages of Water respond promptly to my treatment. It is scientific.

BLADDER AND KIDNEY DISEASE—Puffiness Under Eyes, Pain in Back, Headache, Vertigo, Swollen Extremities, Cloudy Flakes and Deposits in Urine, are all quickly removed by my Special Treatment.

VARICOSES—Enlarged knotty condition of veins which impairs the circulation, producing a weak debilitated condition of the nerves and mind. I successfully treat these cases without pain or injury to your powers.

NERVOUS DEBILITY is a weak and exhausted condition of the Nerves and Nerve Centers. No one can be strong and robust if his Nerve System is impaired. My treatment soon stops nervousness, mental debility and weakened vitality, and you should not delay if you are suffering from these symptoms.

406 OR 914 FOR BLOOD DISEASE

—If you have inflammation of the Mucous Membrane in mouth and Throat, eruptions on any part of body—sores, ulcers, itching of bones, spots or all discolorations of the skin you should come to me and receive this now famous remedy. All symptoms vanish as by magic when you get the genuine.

HYDROCELE results from injury and is sometimes difficult to distinguish from rupture or varicoles. The remedy I use for correcting Hydrocele completely obliterates the tumor at once.

Consultation Free. Don't Let Pride or False Modesty Keep You Away. Office Hours: Every day, 9 to 4; evenings, 6 to 8. Sunday you will find me at my office from 10 a. m. to 2 p. m. only. Although I am a very busy doctor at all times on account of my large practice, I invite any man whose health is not what it should be, to call at my office and consult me about his case (free at any time during the above hours. Remember—Dr. Hodgens is established permanently in Altoona, where you can receive treatment as often as your case demands. Not here today and gone tomorrow. You know with whom you are dealing.

Lingah, a seaport of Persia on the Persian gulf 300 miles southeast of Bushire and once a very prosperous port, has fallen on hard times. For former years it was an important center of the pearl trade and a distributing point for European merchandise, but now Bahrain, where the wealthy European and Indian pearl merchants go regularly to make their purchases, has completely pushed Lingah out of the pearl trade.

Fruit Injured By Frost

Reports from fruit growers about Lantz, Md. in the Blue Ridge fruit belt, are to the effect that the recent cold snap and frosts badly injured the cherries and peaches and those crops will be largely a failure. But the apple crop will be a bumper one. The apples had not put forth their bloom when the freeze came, but the cherries and peaches were in full bloom and could not stand twenty-eight degrees temperature.

Salvation Army Drive Next Week

Belford County Share \$5000.
Committee Organized.

At a meeting held in the office of Mr. Emory Claar Tuesday evening presided over by Hon. John M. Reynolds, matters in connection with the approaching Salvation Army Drive, which begins Monday the 19th and ends one week later, May 26th were discussed.

Those present organized an Advisory Committee composed of the following members: Hon. John M. Reynolds; Hon. S. A. Cessna; Dr. S. F. St. John; J. Roy Cessna; Emory D. Claar; George Points; Chas. R. Mock; J. Anson Wright; Charles L. Longenecker; Miss Jesse Barclay; Mrs. Shirley Hulse and Mrs. William Brice Jr.

On suggestion of Hon. John M. Reynolds, the Advisory Committee then elected Jere C. West as Chairman of the Drive for Bedford County with authority to appoint two Associate Chairmen, a Treasurer and a Secretary. The two associate chairmen appointed are B. F. Madory, Esq. and Mrs. Shirley Hulse, Treasurer Chas. L. Longenecker, Secretary, Mrs. William Brice, Jr.

The fact was brought out at the meeting that the Salvation Army now seeks to the means to put into the same broad policy in relation to its peace work that has marked its splendid war work, and it is with that end of view that the organization is making an appeal to all patriotic Americans at this time.

The heroic work the Salvation Army did for our boys in France entitles them to the unstinted moral and financial support of every loyal American. If you don't believe that, look at our own County boys who have recently come home. This money will help to kindle a spark of hope in the breasts of thousands of outcasts that can be reached by no other agency on the face of the earth as effectively as by the Salvation Army.

The campaign begins in a few days. Monday—and lasts only one week. Every man and woman in Bedford County is asked to contribute. Don't wait for the solicitor; mail your check to the Treasurer today. Speaking by Adj. Boys at the Armada 3:00 o'clock and on the Public Square 8:00 Saturday.

'Tis a curious fact but past all doubt, That the more happiness one gives out The more he has left, and the more his powers. As the gardener strips a bed of flowers That more shall bloom, so strip your soul That another's happiness be made whole. And let in the quick winged second after 'Tis filled with the bloom of love and laughter.

Fair Supposition.

My sister sent her little boy to a nearby grocery to get a box of can rubbers. The clerk, not knowing the desired kind or quality, sent two boxes home with Paul, telling him to bring back the one his mother didn't want. After a long time Paul came home. When my sister asked him why he had brought two boxes home, he couldn't remember to save his little soul. At last he looked up brightly and said: "Don't you s'pose they need the money?"—Chicago Tribune.

His Esthetic Appetite.

"For one so young, my baby, Rowdy, has a terrible taste for music," boasts ed Mr. Gap Johnson of Rumpus Ridge. "Tuther night at the dance, while the beauty of our community was eating the lap supper and the whisky for the chivalry was on tap out in the smoke-house, Rowdy crawled up and gnawed a hole in the orchestra leader's fiddle, which was laying on a chair. By chuck!—if he keeps on that way we'll make a professor of that boy!"—Kansas City Star.

When Summer Scored.

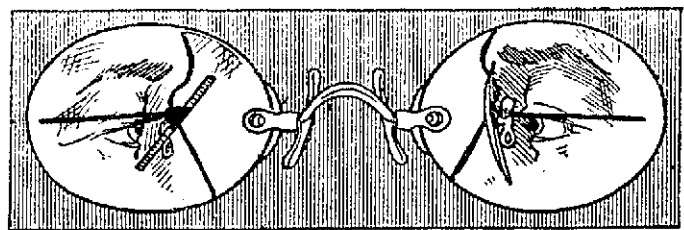

Once when Charles Summer was in London he gave a ready reply. At a dinner given in his honor he spoke of "the ashes" of some dead hero. "Ashes! What American English!" rudely broke in an Englishman; "dust, you mean, Mr. Summer. We don't burn our dead in this country." "Yer," instantly replied Mr. Summer, with a courteous smile, "your poet Gray tells as much. 'Even in our ashes live their sealed fires.'" The American was not criticized again that evening.

Monkeys' Playful Antics.

The merry antics of monkeys are many and diverting. Humboldt was acquainted with a monkey in India which took delight in riding a pig. Every morning the creature caught one, leaped astride his back, and clinging there with great firmness, took his fill of riding. Another monkey, domesticated by a missionary, used to put the family cat, a strong, good-natured animal, to the same use.

Explaining Catastrophe.

A five-year-old boy was joyously driving his pet dog hitched to a small wagon one afternoon last week. A woman passing said, "That is a fine horse and wagon you have." "It's a train and a engine," testily replied the child. Returning two hours later the woman saw the boy sitting on the sidewalk beside the broken wagon. "Oh, what has happened?" said she sympathetically. "The engine saw a cat," briefly replied the boy.

No finer tribute has been paid to the Democratic Congress than that it shifted the burden of taxation to meet the cost of war so that it appropriated the excess earnings of war time industry and laid its hand upon the incomes of the wealthy.

The Old Guard neither surrenders nor dies. With Penrose, Lodge, Smoot Mann and Mondell in the saddle, the progressive Republicans in Congress sacrifice principle to party expediency. Under such leadership, what may the country expect from the new Congress?

In nineteen acres out of twenty, those who are actively opposing the League of Nations are political enemies of President Wilson. Their personal and partisan dislike of him has warped their judgment, but it won't carry any influence with the American people.

Science has made war unutterably destructive and would make the next one annihilating. To escape the destruction of civilization, there must be no more war. The League of Nations points the pathway to peace; such a league is a compact against war.

It is much easier to deal satisfactorily with well trained self-helpful people who can and will think, than with the hordes of ignorant people who know that something is wrong, but do not know how to remedy the evil, except by fire and blood shed. What a work for the public schools!

Weekly Health Talks

Where Most Sickness Begins and Ends

BY FRANKLIN DUANE, M. D.

It can be said broadly that most human ills begin in the stomach and end in the stomach. Good digestion means good health, and poor digestion means bad health. The minute your stomach fails to properly dispose of the food you eat, troubles begin to crop out in various forms. Indigestion and dyspepsia are the commonest forms, but thin, impure blood, headaches, backaches, pimples, blotches, dizziness, belching, coated tongue, weakness, poor appetite, sleeplessness, coughs, colds and bronchitis are almost as common. There is but one way to have good health and that is to put and keep your stomach in good order. This is easy to do if you take Dr. Pierce's Golden Medical Discovery. It is a wonderful tonic and blood purifier, and is so safe to take, for it is made of roots and herbs. Dr. Pierce, of Buffalo, N. Y., stands behind this standard medicine, and it is good to know that a distinguished physician is proud to have his name identified with it. When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all around the earth. Still more, you get a temperance medicine that contains not a drop of alcohol or narcotic of any kind. Long ago Dr. Pierce combined certain valuable vegetable ingredients—without the use of alcohol—so that these remedies always have been strictly temperance medicines. If piles are torturing you, get and use Pierce's Anodyne Pile Ointment. The quick relief it gives is hard to believe until you try it. If constipated, Dr. Pierce's Pleasant Pellets should be taken while using Anodyne Pile Ointment. Few indeed are the cases which these splendid remedies will not relieve and usually overcome. They are so good that nearly every drug store has them for sale.

It's Surprising

That so Many Bedford People Fail To Recognize Kidney Weakness.

Are you a bad back victim? Suffer twinges; headaches, dizzy spells?

Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do.

Kidney trouble needs kidney treatment.

Doan's Kidney Pills are for the kidneys only.

Have convinced Bedford people of their merit.

Here's a Bedford case: Bedford testimony.

Kidney sufferers hereabouts should read it.

Mrs. William Fletcher, Spring St. says: "Last fall I was troubled with a bad feeling in the back of my head. Finally there was an awful pain in my back and I decided that my kidneys needed attention. I had seen Doan's Kidney Pills recommended in the paper so I purchased a box and started their use. After I had taken just one half of the box I was cured and I have had no trouble since."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fletcher had. Foster-Milburn Co., Mfrs. Buffalo N. Y.

GERMANY OWES SOME BILL

Victory Liberty Loan a Trifle By Comparison.

"Germany debtor to the Allied Powers: To one defeat (delivered November 11, 1918).....\$120,000,000,000. "Please remit."

One hundred and twenty billions. That's the way the bill reads.

People who think victory comes high at six billions—the estimate of the Victory Liberty Loan—will do well to study the above bill. It is the just indemnity which the Peace Conference Committee on Reparations has decided Germany ought to pay.

And a large part of it is to be collected immediately. France alone insists upon an immediate payment of \$5,000,000,000 on account. The other nations which suffered from Germany's method of war making will also present sight drafts for collection. Payment of the total sum is to be made in 25 to 35 years.

Paying off this staggering debt is a job that makes the flotation of a six billion loan seem trifling. The German people will not have the opportunity to pay it through the easy means of popular loans. This is a method of financing war debts reserved for the victors.

And the Allied indemnity is not based on a theory of loot. It is an honest claim for damages suffered.

When boys and girls are fitted for some useful occupation they do not become pessimists, but are sanguine and hopeful, carrying rays of human sunshine and are self-helpful and successful wherever they go.

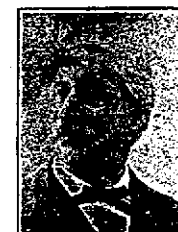

That system of public education which does not consider first of all the great masses of common people will in future be worse than failures.

In rebuilding central and western Europe, practical education for the masses must be the foundation and America must have much to do with building that foundation.

We are at the beginning of a new era in which practicality will be the watchword, and public schools must fit our boys and girls for the duties of a very progressive age.

That government which does not reach out a cordial and strong helping hand to the struggling masses of people may expect a constant and persistent strife in future.

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood.

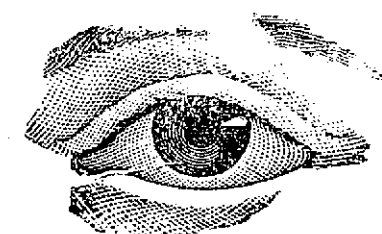

Kidney disease is usually indicated by weakness, sleeplessness, nervousness, dependency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately.

The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Do not wait until tomorrow. Go to your druggist today and insist on GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning and will bless the day you first heard of GOLD MEDAL Haarlem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

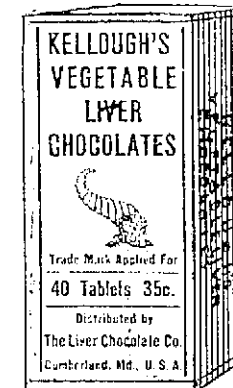

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

The working people, sometimes called the "lower strata" must be reckoned with in future by all nations. The day of government by kaisers, kings, political bosses and political machines is rapidly passing.

Fear is one of the most withering curses of all ages. Don't try to scare any one. Cultivate hope, faith and courage. We will need these qualities

The fact that the rare rare does not lessen their value.

No two children are alike, not even twin sisters. Any effort to make them so is wicked and wasteful. Courses of study administered to all children in the same way are destructive of originality and initiative. Uniformity of treatment is deadly and deadening.

The child learns as naturally as he eats or grows. Thus he needs mental food. If he does not thrive on that found in the home or school, change his mental diet. It will do him good and may help you.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)

(Copyright, 1919, by Western Newspaper Union.)

LESSON FOR MAY 25.

REPENTANCE.

LESSON TEXTS—Jonah 3:1-10; Luke 13:1-5; Acts 2:37, 38.

GOLDEN TEXT—Repent ye, and believe the Gospel.—Mark 1:15.

ADDITIONAL MATERIAL—Isaiah 1:10-17; Luke 3:1-14; Acts 17:30, 31; 2 Cor. 7:9-11; 1 Peter 3:9.

PRIMARY TOPIC—God's Willingness to Forgive.

JUNIOR TOPIC—The People of Nineveh Repent.

INTERMEDIATE TOPIC—Turning From Sin to God.

SENIOR AND ADULT TOPIC—The Nature and Fruit of Repentance.

I. The Repentance of the People of Nineveh (3:1-10).

The following steps are noted in their conversion:

1. Hearing the Word of the Lord (vv. 1-4).

The Lord commanded Jonah to go to Nineveh, a great and wicked city, and there "preach the preaching" that he bade him. Jonah's runaway experience (see chapters 1, 2) was such that he was willing to obey God. His chastisement was severe, but by God's grace he was now ready to execute the commission. "Jonah arose and went unto Nineveh according to the word of the Lord" (v. 3). So great was the city of Nineveh that it required three days to compass it; that is, to visit its very centers of activity. Jonah, coming from Palestine, doubtless entered the city from the south, and during an entire day going from center to center cried, "Yet forty days and Nineveh shall be overthrown" (v. 4). Since the king's palace seems to have been in the south part of the city Jonah's message soon found its way to him. If every preacher would preach what God bids him there would be more cities turning to God.

2. Believing God (v. 5).

They not only believed God, would visit judgment upon them, but believed in God, and put their trust in him for mercy and salvation.

3. Repented (vv. 5-9).

Their penitence was shown in (1) proclamaing a fast and putting on sack cloth (vv. 5-7). These marks of humiliation were shown by all, from the king on his throne to the most humble man. (2) Cried mightily to God (v. 8). In the midst of their humiliation they cried with intensity to God. (3) Turned from their evil ways (v. 8). The final test of penitence is turning from sin; it is hating sin badly enough to quit it.

4. Accepted by God (v. 10). When the Ninevites turned from their evils God refrained from executing doom upon them. It averted judgment. God is unchangeable. His holy nature is unalterably opposed to sin. When men repent from their sins his wrath is turned aside. This is what is meant by God repenting.

II. The Necessity of Repentance (Luke 13:1-5).

Repentance is necessary on the part of all, since all are sinners. "The wages of sin is death" (Rom. 6:23). While God is unalterably opposed to sin he is infinitely gracious. His holy nature compels him to cause judgment to fall upon those who will not turn from their sins to serve him. Repentance is not merely a matter of privilege, but of absolute necessity if one would escape the wrath of God. Repentance is the only door of escape from perdition. It is not a question of how great a sinner one is that determines the need for repentance, since God cannot look upon evil: "For thou art of purer eyes than to behold evil, and canst not look upon iniquity" (Hab. 1:13). No one can ever see him in peace unless he turns from his sins. God commands men to repent (Acts 17:30).

III. The Blessed Results of Repentance (Acts 2:37-38).

1. Remission of sins. Remit means to send away. The one who repents is rid forever of his sins, for he is a new man in Christ.

2. Gift of the Holy Spirit. When one is regenerated he not only is rid of his sins, but God, the Holy Spirit, takes up his abode in him. He is his teacher, guide and defender. These blessed results ought to move one to repent. The goodness of God ought to provoke men to penitence.

You Cannot Lose.

To have is to use, not to hoard. "He that saveth his life shall lose it." That is the reason for spending yourself—the fact that you cannot lose what you really have; the fact that spiritual quantities are real quantities; that the best in us is better and stronger than the worst, if we believe in it; that to the eye of faith, Satan—like lightning—is forever falling from the heaven of things that endure.—W. H. Blake.

Influence of the Bible.

Hold fast to the Bible. It is the sheet-anchor of your liberties; write its precepts on your hearts, and practice them in your lives. To the influence of this book we are indebted for the progress made in civilization, and to this we must look as our guide in the future.—U. S. Grant.

Heat ALL Your House THROUGH ONE REGISTER

Yes, it's just as possible in your home as it has been in fifty thousand others. You, too, may have every room comfortable with balmy healthful heat, reaching every corner by Nature's method of circulation—and all through only one register! It isn't necessary to clutter up your house with pipes, overheat your cellar and incur big bills—not when you can get the

PIPELESS CALORIC FURNACE

The Original Patented Pipeless Furnace

It can be set up in a day, without inconvenience to you, and will make your home so comfortable in the severest winter weather you will be well repaid.

Your house will be uniformly warm; your cellar will be just right for the storage of fruits and vegetables. Your fuel bill will be less than with stoves that heat only a part of your house.

HERE ARE THE REASONS

The Caloric is the Original Patented Pipeless Furnace—the result of the study of competent engineers to solve the heating problem in the most satisfactory way. That they have succeeded is proved by the fact that the number of Caloric furnaces sold on an absolute guarantee of satisfaction is three times greater than any other pipeless furnace.

The cause of this satisfaction lies in the patented and exclusive principles that distinguish the Caloric from all others. It is not a pipe furnace provided with an extra casing, but a complete revolution in furnace building designed exclusively for pipeless heating.

Come In And See Us

We will show you what these principles are, and you will then see what Caloric quality means, why it always succeeds and why imitations cannot accomplish the same results. Then you will be in no danger of buying an inferior article, with all its disappointment in later months. Get a copy of the book "Progress," which tells the fact about pipeless heating. If you can't come in, write for it.

Compare Goodrich 375's with other Ford Car Tires

If you have not used these husky, *de luxe* tires for the Ford car, go at once to a Goodrich dealer and say to him, "Give me a Goodrich Three-Seventy-Five."

Compare it with an ordinary Ford-size tire, and you will find it bigger and burlier in every way.

As a matter of figures and measurements, it is an inch bigger on the circumference, and much thicker in the cross section—that is, a $31 \times 3\frac{1}{2}$ inch tire.

That extra size means a finer looking, easier riding Ford car to begin, and a longer lived car and tires in the end.

Though "Three-Seventy-Fives" cost a little more at the outset, built to meet the special needs of the Ford car and bring out its known virtues, they soon reveal a greater dollar economy, which makes it the better buy in the long run.

Wilson Sets The Precedent

For the first time in the history of the United States Government Congress will meet May 19th with the President absent from the Capital.

For the first time the presidential message will come to Congress by wire. Not within the historical research of Champ Clark or within the memory of the oldest attaché of the White House has the President been absent from Washington when the Congress met or has he sent his message by wire.

The coming Congress will be a busy one. One of the first acts of the House it is said, will be to unseat Victor Berger, the socialist from Milwaukee, now under sentence for alleged seditious utterances.

The House Committee on appropriations will start the big supply bills at once and only by unremitting labor can they be made available by July 1.

Watchwomen For Government

More men will give way to the fair sex in another job over which he has always reigned supreme when the watchwoman puts in her appearance in Washington D. C. June 1.

Eleven Women will patrol the interior of the dormitories for girl war workers at the Government Hotel here. And to convince anybody who seeks to prowl around their beats it was announced that these "watchmenettes" will carry arms.

In addition to being physically fit for the job, the eleven women selected have had experience in nursing and will be at the service of the young women in the dormitories in case they should become ill during the night.

ANOTHER SENATORIAL MYSTERY

Tuesday Senator Lodge of Massachusetts, the Republican leader of the Senate, and Senator Curtis of Kansas, the Republican whip of the Senate, sent the following telegram to all the Republican Senators who were not then in Washington where they could imbibe partisan wisdom at the fountain-head:

"We suggest that the Republican Senators reserve final expression of opinion respecting the amended League covenant until the latest draft has been carefully studied and until there has been opportunity for conference."

Certain Republican Senators promptly interpreted this telegram as a gag-rule mandate preliminary to Republican caucus action to make the opposition to League of Nations a party question. Senator Lodge denied this, and Senator Curtis thereupon undertook to explain the meaning of the joint message:

"There is a general feeling among Republicans here that Senators should refrain from passing an opinion upon the covenant until they know just what it contains, and they won't know until it has been presented to the Senate for action."

And so the esteemed Republican Senators will not know what the covenant of the League of Nations contains until it has been formally presented to the Senate? Such being the case, what is it they have been talking about for the last two months?

Borah began the discussion before the original covenant was framed and solemnly announced that he would not support it even if "the Saviour of Mankind" came back to earth and advocated it.

When the draft was completed and published the Republican Senators had a brain storm because the President ventured to request them to withhold debate until he could return to Washington and discuss it with the Committee on Foreign Relations. The closing of Congress was devoted mainly to speeches about the covenant of the League of Nations. Knox talked about it and Lodge talked about it and Borah talked about it and Poinsett talked about it, and everybody talked about it who could get an audience, and Lodge held a joint debate with the President of Harvard University, and Republican propaganda agents organized a campaign against it. Now comes Senator Curtis after the revised draft has been printed in all the newspapers, to insist in behalf of himself and Senator Lodge that Senators will not know what the covenant contains "until it has been presented to the Senate for action."

When John Hay was Secretary of State in President McKinley's Cabinet he confessed one day that he had never been able to understand the official mind of a United States Senator. The mystery steadily deepens. What is in the mind of a Senator who could send out the Lodge-Curtis telegram and then issue the Curtis explanation?

Animals Slaughtered For Fur.
It is estimated that nearly 70,000 animals are killed annually for fur.

Alfalfa Is The Crop

There is no doubt in my mind but that the growing of alfalfa in sufficient quantities on each farm will do more to increase the profits, by reducing the expenses than any other one thing. This has been true for years, but it is increasingly true now with the high price of mill feeds. Alfalfa undoubtedly equals bran in feeding value. This is the time to prepare for it. Seeding alone in May and June gives the best results. Occasionally successful catches are obtained with Spring wheat, and still better with barley, or peas and oats cut for hay, but on the whole, May seeding is more reliable.

The questions of primary importance in preparing a field are: First, the variety of seed with a deep soil, use northern grown common (a straight tap root.) With a deep clay without a hard pan, use the Baltic. With a hard pan soil use Grimm. Second, lime at least three tons of ground stone, or half of this amount of burnt lime. Third, inoculate with culture. Fourth, use phosphoric acid, phosphates or basic slag.

Alfalfa is a peculiar crop, it does not pay unless all four of these conditions are absolutely met. However, we now know enough about this crop so that we can depend upon it as reliably as any other crop we grow. In Pennsylvania it should return at least five tons per acre after the first year, and being equal to wheat bran the value of such a crop is tremendous. Many farmers are increasing their seedings of alfalfa and the most surprising feature is that so many are as yet not growing it. It is worth the attention of any person raising crops.—F. R. Stevens, Harrisburg.

In Memoriam

Whereas, it has pleased Almighty God to remove from this earthly life, Ramon Alvy Bowen, and

Whereas, Ramon Alvy Bowen, at the time of his death was a Sergeant in the United States Army; was one of the first to answer the call to the colors in 1917; had been for seventeen months on the fighting front in France had a highly honorable record as a soldier and gave his life while in the performance of military duty.

Therefore be it, Resolved: That we deeply deplore the death of our comrade; that we recognize the supreme sacrifice he made for his country and the cause of world democracy; and that we hereby extend our most heartfelt sympathy to the family of the deceased.

Be it further, Resolved: That in any future lodge formed in Bedford County, by soldiers of the World's War, of which we may be members, we shall claim for Sergeant Bowen's memory, all the rights, honors and privileges of a brother member, and that the proper memorial of his life and death be spread on the official records of such lodge and a copy of the same record forwarded under the seal of the lodge, to the Supreme Lodge of the Order, for incorporation in the National archives of the Order.

Also, be it further, Resolved: That copies of these resolutions be forwarded to the family of our deceased comrade and also to the two newspapers printed in his home town of Everett, Pa. and to the two newspapers at Bedford, the county seat for publication.

Senator Penrose Proposes New Plan

Declaring that retrenchment and economy should be the watchwords for the republican party in Congress Senator Penrose, prospective chairman of the Senate committee on finance has issued a statement outlining a program he will suggest to the Senate.

He thinks Congress should take up subjects for legislation at the coming session as follows:
Repeal of the luxury taxes.
Installation of a budget system.
Simplification of tax laws and tax returns.

Reduction of taxation of individuals investigation of war expenditures.
Repeal of all powers heretofore granted for price fixing and other forms of interference with legitimate business.

Are You Getting War Risk Checks

Nearly 3,000 checks made out to disabled soldiers, sailors, and marines were returned to the Bureau of War Risk Insurance last week through failure of delivery. Many men who have applied for compensation have given temporary addresses and checks sent to these addresses are returned to Washington by the post office authorities because of persons changing their address.

Senators Indorse Treaty Severity

Comment among the Senators on the peace treaty with Germany runs mainly along party lines of approval or disapproval, although there is general approval of the severity of the terms imposed upon Germany and of the disarmament provisions.

Senator Chamberlain of Oregon, retiring Chairman of the Military Affairs Committee said the treaty "appears to have drawn the teeth and claws of Germany pretty effectively and with that I am thoroughly in accord."

RAINSBURG

We have been having a few days of cloudy weather and down pour of rain. We are glad to see the good old sunshine because they both are a help in time of need.

The farmers are planting their corn and potatoes and making an effort to raise a bumper crop this season.

The American people are looked upon to feed the world. So let us do our duty.

There is quite a number of sick folks around the neighborhood. Some especially in a critical condition.

Mrs. Walter Cessna is improving slowly.

William Cessna is very ill at the present time.

Frank Shaffer who has been in a lingering condition for some time with rheumatism is not gaining much in health at the present.

Sunday May 11, preaching service in the M. E. Church by Rev Pitinger was well attended and believe the people got what was in store for them. Go to the house of God and he will not turn you away.

Rev. Miller of the Lutheran church was disappointed Sunday morning when only a few were out to service on account of the weather, but some of the words which were spoken were straight to the point.

Mrs. Annie McNamara is visiting home folks at present.

Grant Smith was in our town Sunday.

The State Foresters have planted thirty five thousand trees such as white pine yellow and red pine.

Samuel Shaffer was called west. His sister, Mrs. Ott died recently.

Important Poultry Disease Remedies

Do you keep poultry? What is more discouraging and costly than to have disease break out in the flock. Poultry diseases as a rule pass rapidly from bird to bird and may be carried to neighboring flocks. Most diseases respond favorably to treatment although some resist all efforts at treatment. Preventive measures properly applied offer the surest means of controlling poultry diseases.

This booklet suggests methods of controlling and treating all important poultry diseases and has been a great help by many poultrymen.

Readers of the Gazette may obtain a copy of this booklet free by asking for F. B. 957, addressing the Division of Publications, Department of Agriculture, Washington D. C.

Railroad Loss \$130,000 In Three Months

The government's loss in operating the railroads for the first three months of this year was \$130,000,000 according to earning figures of the larger roads reported to the Interstate Commerce Commission. During this period the railroads earned for the government \$40,000,000 while the government was obligated under the railroad control act to pay to the companies \$170,000,000.

Good Roads Amendment

One of the many indications of the widespread interest among the various States for good roads has been shown by West Virginia, where the present State Legislature unanimously adopted an amendment to the Constitution authorizing a definite system of State Roads.

The amendment authorized the issuance of bonds not to exceed \$50,000,000 outstanding at one time for road construction and maintenance.

West Virginians realized their biggest problem was one of communication and transportation. They knew the State possessed unlimited resources in iron, coal, gas, and oil but that the progress of their Commonwealth was seriously hampered by inadequate highways. The scenery of the State is surpassed by few, if any, of the States, and will offer a mecca for automobile tourists.

Renovating the Used Car.

The car that has seen one or two years' service is bound to be somewhat marred and shabby in appearance. While we may not be in a position to buy a new car this year, yet our pride in keeping up appearances demands a spic and span appearance.

The expert auto and carriage painter can obtain the real "factory finish," but there are many of us who cannot spare the amount necessary for this work, so it's well to know how to do the work ourselves. It's not a difficult job when one knows how.

When the surface is in good condition an dit is desired merely to freshen up the colors, clean off all dust, dirt and grease with benzine or turpentine. Sandpaper lightly to cut the gloss and then apply one or two coats of a good auto finishing varnish.

If it is desired to merely change the color in keeping with your own ideas, first thoroughly clean off all foreign matter with sandpaper as directed above. Then apply two coats of auto enamel of the desired color. Where an exceptionally high finish is desired, complete the finish with one coat of auto finishing varnish.

When the surface is in bad condition and paint has chipped or cracked, remove all loose particles and prime such spots with lead and oil primer, composed of lead in oil thinned with turpentine and a little Japan drier. Allow to dry twelve hours. Deep cracks and dents should be filled with filler and surfacer. Knifed on as you would use putty. Allow to dry eight hours and sandpaper level. To thoroughly even up the surface, apply one or two brush coats of the filler and surfacer, eight hours apart, sandpaper.

Next apply one or two coats of good auto enamel of the desired color, using the color recommended by the dealer as the proper ground coat for the color of enamel selected. Sandpaper lightly between coats. Then apply one or two coats of good auto enamel. This will complete the job. If, however, an exceptionally high finish is desired, complete the work by applying a final coat of auto finishing varnish.

These various treatments, under proper conditions, will give your car a factory newness. In appearance, you will have a new car quickly and economically.

Looking Backward

Looking backward over the two years that have elapsed since that memorable day, April 8, 1917, when President Wilson signed the joint resolution of Congress that formally aligned America with the Nations of the earth that were fighting to save civilization and liberty from becoming a mere memory, it is difficult to conceive that the span has been so brief.

Mortal minds find it difficult to grasp the immensity of the stupendous events that have transpired in that brief time, every day has been filled with glorious deeds, each worthy a page in history; deeds of devotion, of sacrifice, of duty done, deeds that will grow brighter and more glorious in the perspective of the years; deeds that time will illumine until they shine with a brightness unparalleled in all the ages.

The wonderful story of America's accomplishments since her might was hurled into the breach to stay the onrush of the horde of Huns that spring day two years ago is a record of the achievements of the unparalleled, of the seemingly impossible and will form the brightest chapter in the world's history. The names of those men who by their deeds of sacrifice, of patriotism and of devotion to duty furnished the theme for this wonderful story will form a roll of honor to be inscribed on tablets of memory that will never perish.

The wonderful story of America and the World War—the greatest of all the ages—will be told in song and story, will be illustrated with the painter's brush, but the figure that will stand out in greatest relief that will loom largest on the horizon of history growing with every passing year and an inspiration for every American youth, will be that of the courageous, the indomitable but patient President Woodrow Wilson.

Inspired by partisan and selfish ambitions, trad. ers are attempting to defeat the very purposes of this man who now sits at the peace table, seeking to achieve the full fruits of the victory that has been won at the cost of so much blood and treasure; seeking to bring to a war-worn world an era of lasting peace. Washington and Lincoln had their traducers, small men who sought to detract from the greatness of those they could not even imitate; men whose purity of purpose and towering intellect they could not appreciate. But like Washington and Lincoln, Wilson will gain in the love and admiration of his country and the world until his figure towers alongside those of the greatest men of all time—Wilson, the father of the new freedom.
